Deleted PEIMS Codes

Pam Humphrey & Mary Morgan
ESC Region 11
February 11, 2016
Effective 2016-2017

Modified Courses Code (05)
The End of Course (EOC) Modified assessment code (05) will be deleted and no longer be available to identify modified courses.

- English I, II, III
- Algebra I, Geometry, Algebra II
- Biology, Physics, and Chemistry
- United States History Studies Since 1877, World History, World Geography
Effective 2016-2017

Alternative Course Code (07)

The deleted Alternate EOC assessment codes (07) for courses that no longer have an EOC requirement:

- English III
- Geometry and Algebra II
- Chemistry and Physics
- World History and World Geography

The Alternative EOC codes remain for courses for which there is an alternate EOC assessment.
## Implications

Possible Solutions- internal tracking

Create local course names and numbers for internal tracking and report cards.

Create a separate session based on population served with a local unique course name and number.

For students receiving modified curriculum in the general education setting create a course within a course with a different course name and number.
Possible Solutions

The “v” code can be used to distinguish the modified courses.

Course names can reflect the academic rigor i.e. AP, Honor, Remedial, etc.

The state course service ID number will be used on the transcript. The transcript will reflect the state course name.
Change is Challenging

The purpose of the "05" and "07" code was to identify courses with modified or alternate curriculum aligned with the EOC exams. The changes are aligned with the current EOCs.
